Future Projects

South Street Pathway: Environmental Partners forwarded a plan showing four locations for infiltration basins (three doubles and one triple), associated deep sump catch basins and gutter inlets. Storage volumes were based on being able to handle a 1-year storm. The cost estimate is \$99,759. The Committee will ask town counsel and CPC if funds can be used on this drainage as a component of the construction of the pathway.

Member Staples moved to adjourn at 8:00. The motion was approved 4-0.

I certify that the above minutes were reviewed and approved by the majority vote by the Pathways Committee on July 29, 2015.
