Chris DiIorio Reimbursement Registry of Deeds OOC Filing \$77.00

Member Cafferty moved to approve the bill. The motion was approved 7-0.

Meeting with CPC to discuss proposal.

The Committee presented the approved pathway project and requested \$300,000 from CPC funds for construction of the pathway. A special town meeting is scheduled for 11/21/11. If approved these funds would be available immediately.

Abutter notification issues with Con Com NOI: The abutters list that was created for the NOI application was for the version of the pathway plan that crossed through the highway yard for its full distance. When the pathway route was modified to cross the southern edge of the Osborn Fields immediately prior to the application being filed with Conservation a new abutter to the project was created. That abutter was not properly notified in error. The abutter was asked to forward any concerns or information to Conservation in written form. If Conservation determines the new information warrants a public hearing they may ask the Pathways Committee to reopen the hearing or seek an amendment to the OOC. In lieu of this the abutter accepted an offer to meet with Pathways Committee staff, Horsley Witten's engineer and the Conservation Agent to address any issues they may have as abutters.

Bid Documents: Plans are complete. Specs (front end and technical sections) are still being worked on and may take up to a month.

Member Palzkill moved to adjourn the meeting at 8:30. The motion was approved 7-0.

I certify that the above minutes were reviewed and approved by the majority vote by the Pathways Committee on August 26, 2015.
