RECEIVED

The meeting was called to order at approximately 6:00 p.m. Present were Committee Members Anne Staples, David Magee, Ken Cadman, Kevin Cafferty, Pat Palzkill, Sally Turner, Scott Raeside and Sean Sutton. The meeting was held on the pathway site and moved to the Planning Office after touring the site.

Pathway Construction: Conservation issued a stop work order on Harding for the filling of wetlands to make the haul road. They were approved to use mulch or wetland mats and they filled the area with rocks/gravel and mulch. As mitigation Harding agreed to construct a bioretention swale/wetland to pretreat water leaving the highway yard in the down gradient part of the yard.

At this time all of the porous pavement, concrete abutments, loaming/seeding, drainage swales & soil fabric/check dams are in place as is the bollard. The piles, boardwalk, & railings near Cushing Hill Rd. are also complete. Harding has demobilized from the site.

The following items remain to be completed:

The 3 boardwalk sections between STA. 58+70 to 71+35, striping, signage, remove temporary bridge and final clean-up.

Member Palzkill moved that the committee adjourn at 7:30. The motion was approved 4-0.

I certify that the above minutes were reviewed and approved by the majority vote by the Pathways Committee on August 26, 2015.
