MEMO

ATTN: APPLICANTS OF ELECTRICAL, PLUMBING, AND GASFITTING PERMITS

In August of 2018, The Town of Norwell initiated online permitting through Permiteyes, a program that not only allows contractors to apply for permits, but also allows them to pay online, track their project inspections, and initiate correspondence with the Building Department, anywhere, at any time.

In response to the conditions set forth by M.G.L. c. 143, § 3L, 527 CMR 12.00, and 248 CMR 3.00, we are pleased to offer a paperless incentive for applicants electing to remit paper permit applications to the Norwell Division of Inspectional Services. Starting July 1st, 2019, the Town of Norwell will require a processing fee of \$25.00 for applications provided on paper.

The Division of Inspectional Services is happy to provide guidance to those in need of assistance with applying through Permiteyes and will be available during regularly scheduled office hours. Applicants will be expected to furnish their own supporting documentation including proof of licensure and certificates of insurance, as required. Basic tutorials are expected to be available on the Building Department webpage in the Summer of 2019.

Respectfully,

Tom Barry
Building Commissioner
Town of Norwell
