RE: 15 High St

This memo is in response to your inquiry regarding Conservation Concerns or records for 15 High St., Norwell MA.

A review of our files and database show no files or records of permits for this site or for the immediate surrounding properties. A review of online GIS data shows no wetland resources identified in or adjacent to the property. It is important to note that no delineation has ever been conducted. Based on the heavy commercial and residential use surrounding the property, there are no indicators at this time that would lead me to request a delineation. The Conservation Commission has no comments or concerns about this project.

Please let me know if you would like any additional information.

Sincerely,

Will Saunders
Norwell Conservation Agent
